DETAILED ACTION

Allowable Subject Matter

Claims 1, 4-9, 14-17, 21-23 and 27-32 are allowed.

1. Applicant amends claim 1 by the definition for a)1) that a substantially linear homopolymer is polypropylene and a)2) is a long chain branched linear homopolymer of propylene, and an elastomer b) is ethylene alpha-olefin polymer; and a thermally decomposing free radical generating agent c) comprises at least an azo compound having the general formula in claim 1.
2. Upon reviewing the references of record, amendment to the present claims and applicant's remarks, it was found that the reference patent 6,323,285 to Johnston et al does not disclose linear polypropylene. There is no motivation to combine the teachings of Johnston invention with the secondary reference Patent 6,921,792 to Kim et al because none discloses a long chain branched linear homopolymer of propylene.
3. None of the cited references discloses the content of a linear polypropylene, a long chain branched polypropylene and a cross linkable aliphatic elastomer for independent claims 27 and 31.
4. The new search has been made, however, there is no prior art closer as that previously of record.
5. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. References have been considered.

Art Unit: 1711

6. This application is in condition for allowance except for the following formal matters:

The withdrawn claims 2, 3, 10-13, 18-20, 24-26 should be cancelled as redundant claims.

Prosecution on the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11, 453 O.G. 213.

A shortened statutory period for reply to this action is set to expire **TWO MONTHS** from the mailing date of this letter.
